Unusual Operation Necessary.

Shirley Frisbie, of Cynthiana, returned to St. Joseph Hospital, Lexington, Monday to undergo a second operation on his left arm, which was broken last winter by a pistol shot. Since the first operation the shattered pieces of bone have refused to unite and an incision will have to be made, the tips of the bone sawed off and the remaining pieces wired in the hope that they will grow together. The operation has been postponed for a few days but will be performed today or tomorrow.

A Bit of Law.

Now that the threshing season is at hand and traction engines are moving about, it would be well for those who are running them to remember that the law requires them to send a man 200 yards in advance of a traction engine to warn persons to look out for their horse, and render them assistance if necessary. A stiff fine is the penalty for failure to comply with the law in this case.

Fails to Corroborate Confession.

Curt Jett, the confessed assassin of J. B. Marcum, failed to corroborate his confession on the witness stand Wednesday at Beattyville, in the trial of James Hargis and Ed Callahan, jointly charged with being accessory to the murder of Marcum. He was drunk while testifying, and asserted that he was prompted to the murder only by revenge, and was not urged to the deed by either Hargis or Callahan. Tom White failed to make a witness, refusing to answer any questions. Much important testimony was introduced during the day by the Commonwealth, and it is claimed a case was made against both the defendants.

The packers insist that canned goods are just as good after five years as they are on the day they are canned. That's bad!

Real Estate.

We beg to announce to the good people of Paris and Bourbon county that we have opened an office in Paris, on the corner of Seventh and Main streets, for the conduct of a general real estate business.

This office, which will be in charge of Mr. Lee Beall, is one of the chain of offices located in the principal cities of the bluegrass and including Versailles, Lexington and Winchester.

Unity of management of these several offices gives us a large territory in which to find buyers, and enables us to supply intending purchasers with just the location and character of property they wish, while charges are no more than other agents exact who cover only one city or county.

Mr. Beall wishes you to call on him in his new quarters, Seventh and Main, J. W. Lancaster's old stand, and give him a chance to be of service to you.

Dog Tax Law Constitutional.

The first test case of the celebrated Croan dog tax law, which was enacted by the last Legislature, came in the Franklin County Court Tuesday, Judge J. H. Polsgrove holding that it is constitutional. The judgment will be appealed to the Circuit Court. Attorney Andrew Scott, acting for John Clark, a farmer, raised the question of the constitutionality. Clarke was charged with harboring a sheepkilling dog which he refused to be allowed to be killed. He was fined \$25 but the fine will be held in abeyance until the case is carried through the higher tribunals.

Paris now reports that the French people have quit following John D. Rockefeller, as he goes from place to place. It is just as well. He never drops anything.

A Death Trap.

Tom Boggie, a prominent farmer living just over the Estill county line from College Hill, Madison county, has for some time been missing things from his residence and determined to catch the guilty parties that were stealing. He placed a gun just in front of the door and tied a string at one end to the trigger of the gun and the other to the door knob so that when the door was opened the gun would discharge. Mr. Boggie, who had been away from home that night, returned next morning to find John Woods, aged 23, the son of Wm. Wood, a prominent citizen of Estill county, lying dead in front of his door with his head nearly blown off. The affair has created quite a sensation.

No Regard For the Law.

Here is an instance that plainly shows the people how the Frankfort machine has no respect whatever for the law. M. M. Redwine, who helped create the Thirty-second Judicial district while a member of the House of Representatives has been appointed Judge thereof by the Governor. The law plainly says that no man who helps create an office is eligible to fill said office, but the doctrine of the machine has always been "d—n the law." The doctrine has been carried out to a letter in this instance, as in many more. Now a number of the main cogs in this machine are running for office on their records. It remains to be seen whether the Democrats want a continuance of this machine rule in Kentucky.

A Great Bird.

The American hen is a great bird and ought to be substituted for the eagle as the national emblem. The Secretary of Agriculture reports that last year the eggs of the United States were worth more than the cotton or the wheat, more than all the potatoes, the barley, the tobacco, the sugar cane and the rice. They almost equal the dairy products, and are surpassed only by the corn crop, a good part of which is fed to the hens. Every three months she produces more wealth than the capital stock of all the banks in the New York Clearing House. In two months she lays more value than the annual production of all the gold mines of the United States.

Would Need Wings.

The editor who can please everyone is not suited for this earth, but is entitled to wings. Human nature is so constituted that some of our readers would like to have us feed them on scandal some would like to have us tell the unvarnished truth about them, while others would kill us if we did. It is a comforting thought to the editor to know that the Lord Himself did not please everyone while on earth. We labor hard to entertain and please our subscribers but that we should occasionally fail is to be expected, but you will always find us willing to be forgiven.

An Efficient State Official.

If you want a line on the "machine" just get a copy of Attorney General N. B. Hays' speech announcing himself for Governor. Attorney General Hays has given more efficient services to the State of Kentucky than any officer in the State, although handicapped by having the "machine" against him. The "machine" blocked all efforts to get the Legislature to give assistants to the Attorney General's office, preferring to hire its pet lawyers at enormous fees to do the work that properly belonged to this office, but which was impossible for the Attorney General to do on account of the business that flooded his office. He has been one of the most faithful and conscientious officials ever in Kentucky. Every Democrat in the State should read his speech.

A Remarkable Decision.

Judge Ryan of the Circuit Court at St. Louis has just handed down a decision, in effect that if a person buys goods of a trust operating in violation of the antitrust law, such person need not pay for them any more than he need pay a gambling debt. This decision, if it shall be sustained by the higher courts, will be likely to have great influence on business conditions, indeed, it is liable to greatly modify business customs. Carried to its ultimate conclusion it means that if a person can prove that he has purchased goods of an illegal trust or combination, he need not pay for them no matter what they may be and such conclusion reduces business to a strictly cash basis.

But there is a question as to whether or not the decision will be sustained. There is a difference between an obligation created by a business transaction and a gambling debt. In a business transaction goods are delivered for a consideration mutually agreed upon. A gambling debt is simply evidence of failure to win at gaming, involving the delivery of absolutely nothing. If then payment for goods delivered is denied, much more law would seem to be violated than in the case of refusal to pay a gambling debt. Perhaps there will be so much law involved that the court's decision will have to be revised.

Trying It On the Dog.

In Kansas City a lot of curious people took a dog that had always had a reputation for amiability and good nature and fed him nothing but canned meat for a couple of weeks, in order to ascertain the effects of a steady diet of that sort on the so-called lower animals. The third day the dog began showing temper, the sixth he was cross and snappish, and after that to the end of the two weeks he was "crabbed and surly," in the language of one of the experimenters.

We cannot understand what Kansas City had against the amiable dog, that he was offered indignities of this kind. Dogs have been vivisected, split, torn to pieces, skinned alive and otherwise maltreated in the interests of science, but never before has such an instance of refined cruelty as the canned meat experiment come to public notice, that we know of. The only living things that can fatten on canned meat are blue-bottle flies and maggots, and they have their innings before the meat goes into the cans, if what investigators tell us is true. More than that the dog is not a lower animal. If Kansas City wanted the lowest of the lower animals, why was not any one of the big packers caught and experimented upon? The interests of science would have been as well conserved and the crimes of the packer would have been fittingly punished. The human mind cannot conceive anything more horrible than two weeks of canned meat and nobody knows that better than the packers themselves.

Dangers of Defective Plumbing!

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious disease to which the human system readily succumbs. Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures. If in doubt, consult us regarding the piping and repairing defective fixtures with "STANDARD" Porcelain Enameled Ware, acknowledged as the best sanitary equipment.

Wealth in Old Roman Times.

Our wealth, as much as we boast of
it, is comparatively puny as compared
with the wealth of men of old. There
was Mark Antony's house that was
sold to Messala for over \$500,000, and
Scaurus' villa was burned at a loss of
over \$12,000,000. Otho spent over \$14-
000,000 in finishing one wing of a
palace commenced by Nero. Nearly
\$36,000,000 was found in the coffers
of Tiberius, and Caligula spent it all in
less than a year. Paulus could make
a trifling present to the mother of Brut-
us of a pearl worth over \$30,000. So
let us be modest. We are a cheap
people, even the wealthiest of us.

Smoking the Nargile.

A Greek thus tells how the nargile
is smoked by his brethren:

"Only pure tobacco is used in the
nargile. It is grown expressly for the
purpose in Persia. The weed there is
called tumbeky. This kind of tobacco
is first washed two or three times by
the man who keeps the restaurant. He
puts it under a faucet and squeezes
the juice out. Otherwise the tobacco
would be too strong. Then, when the
smoke of it is drawn through the wa-
ter, the tobacco having, of course, been
dried first, all the nicotine is deposited
in the water, and a delightful and in-
nocuous smoke is the result."

The Test.

"How do you like your new music
teacher?"

"He's no good."

"Why, what makes you think so?"

"Yesterday I played a common tune
clear through, and he didn't say it
would take a week's practice to offset
the harm done."

Surely.

"Tommy is such a sweet child," said
a doting mother, "that I often think it
will be a miracle if he lives to grow
up."

"It will," said the candid neighbor,
with a baleful gleam in his eye.

A Coincidence.

Mrs. Janson said to Mrs. Lamms in
perfect confidence, "Do you know mine
is the prettiest baby in the world?"

"Well, really, now, what a coinci-
dence!" said Mrs. Lamms. "So is
mine!"

Cause and Effect.

Which Body is Marshall's?

Two bodies are lying in an under-
taker's shop at Birmingham, Ala., and
each is declared to be that of W. J.
Marshall, who disappeared from his
home in that place some time ago. A
part of the dead man's relatives iden-
tify one body as Marshall's, while
others declare the other corpse is that
of the missing man. There seems to
be no way to learn which is the right
man.

ANNOUNCEMENTS.

We are authorized to announce W. P.
Kimball, of Fayette County, as a can-
didate for the Democratic nomination
for Congress in the 7th District of
Kentucky, subject to the action of the
District Convention to be held in the
City of Frankfort, on Thursday, July
12th, 1906.

Where Christianity Began.

The hills of Bethlehem are full of
caves, natural and artificial, and
many of them have historic signifi-
cance. There is the milk grotto, in
which Joseph and Mary are said to
have concealed themselves before their
flight into Egypt to escape the evil de-
signs of Herod. The snowy whiteness
of the soft chalk out of which it is
hewn is ascribed to the spilling of a
few drops of the Virgin's milk when she
nursed the infant Jesus. Another grot-
to is pointed out as that in which St.
Jerome for more than thirty years led
the life of a hermit when bitter fac-
tional dissensions had forced him to
leave Rome. On a western hill a rock
strewn plateau, around which stately
terebinths stand guard, marks a place
where the ancient Hebrews brought
their sacrifices unto the Lord. It is a
solemn place, well fitted to excite re-
flective thoughts—a place where a man
might well keep communion with his
Maker. In its broader features Bethle-
hem is almost unchanged since the days
of David.—Four Track News.

Vegetable Rennets.

Those who would like to make cheese
on a very small scale are often trou-
bled to get proper rennet to produce
coagulation of the milk. A scientist
says that if the leaves of the common
butterwort are placed in a strainer and
the milk fresh from the cow is poured
over it the milk will soon become thick
and has a most delicious flavor. The
yellow bedstraw also possesses the
properties of curdling milk, and the
natives of Cheshire prefer it as a ren-
net to all other sorts. The leaves and
flowers are put in the strainer, and the
milk is slowly poured over them. The
flower heads of the garden artichoke
also possess the property of coagulat-
ing milk. In view of the carelessness
sometimes noted in people who prepare
rennet in the ordinary fashion this
vegetable rennet is worthy of atten-
tion. The leaves, properly cleaned and
prepared, would be very much safer
and more hygienic than animal sub-
stances which may go through chemi-
cal changes that unfit them for food.

Old Statues.

Herodotus makes Solon tell Croesus
of several men happier than he. Two
brothers, Cleobis and Biton of Argos,
he said, when oxen were lacking to
draw their mother, the priestess of
Hera, to the temple several miles dis-
tant, harnessed themselves to the cart.
When the mother, proud of her sons
and moved by the plaudits of the
crowd, had prayed to Hera that her
sons might receive the best gifts the
gods had to bestow, they lay down in
the shade of the temple and never
waked. Herodotus says that their
statues were sent to Delphi. Homolle
found at Delphi two statues practically
identical, of finest archaic work, made
early in the sixth century B. C. Since
one of them bore the signature of an
Argive sculptor, Polymedes, in archaic
letters, we may believe that the story
of Herodotus is based on fact and that
we have before us today the identical
statues.—Chautauquan.

An elephant's trunk answers that

A FAMILY SAFEGUARD

Dr. Green arranges with the Niece of Dr. Bos-
chee to handle her famous Uncle's Great
Throat and Lung Cure.

The best family safeguard is a reliable
household medicine that will cure croup,
coughs, colds, chilly sensations, running
eyes and nose, sore throat and bronchial
affections—that will keep the children
proof against all contagious diseases.

Such a medicine is Boschee's German
Syrup, which has a record of 35 years in
the cure of consumption, catarrh and all
lung and bronchial troubles.

The fame of German Syrup as a con-
sumptive cure, since its purchase by Dr.
Green from the niece of the famous Dr.
Boschee, has extended to all parts of the
earth. It has big sales everywhere.

Two sizes, 25c and 75c. All druggists.

Wealth in Old Roman Times.

Our wealth, as much as we boast of
it, is comparatively puny as compared
with the wealth of men of old. There
was Mark Antony's house that was
sold to Messala for over \$500,000, and
Scurus' villa was burned at a loss of
over \$12,000,000. Otho spent over \$14-
000,000 in finishing one wing of a
palace commenced by Nero. Nearly
\$36,000,000 was found in the coffers
of Tiberius, and Caligula spent it all in
less than a year. Paulus could make
a trifling present to the mother of Brutus
of a pearl worth over \$30,000. So
let us be modest. We are a cheap
people, even the wealthiest of us.

Smoking the Nargile.

A Greek thus tells how the nargile
is smoked by his brethren:

"Only pure tobacco is used in the
nargile. It is grown expressly for the
purpose in Persia. The weed there is
called tumbeky. This kind of tobacco
is first washed two or three times by
the man who keeps the restaurant. He
puts it under a faucet and squeezes
the juice out. Otherwise the tobacco
would be too strong. Then, when the
smoke of it is drawn through the wa-
ter, the tobacco having, of course, been
dried first, all the nicotine is deposited
in the water, and a delightful and in-
nocuous smoke is the result."

The Test.

"How do you like your new music
teacher?"

"He's no good."

"Why, what makes you think so?"

"Yesterday I played a common tune
clear through, and he didn't say it
would take a week's practice to offset
the harm done."

Surely.

"Tommy is such a sweet child," said
a doting mother, "that I often think it
will be a miracle if he lives to grow
up."

"It will," said the candid neighbor,
with a baleful gleam in his eye.

A Coincidence.

Mrs. Janson said to Mrs. Lammis in
perfect confidence, "Do you know mine
is the prettiest baby in the world?"

"Well, really, now, what a coinci-
dence!" said Mrs. Lammis. "So is
mine!"

Cause and Effect.

"Poor Jones is suffering from melan-
cholia."

"Why, I thought he was the editor of
a comic paper."

"He is."

The More the Merrier.

"I want to introduce you to a young
lady—a very nice girl—and she's worth
her weight in gold."

"Stout girl, I hope."—London Tatler.

The Miracle.

Woodland—What is the difference be-
tween a wonder and a miracle? Lo-
rain—Well, if you'd touch me for \$5
and I'd lend it to you it would be a
wonder. Woodland—That's so. Lorain
—And if you returned it that would be
a miracle.

Had Her Guessing.

Margie—I wonder if Mr. Smartly
meant to give me a left handed com-
pliment? Rita—Why? Margie—He said
these artificial flowers I am wearing
just match my hair.

Discontent is the want of self reli-
ance. It is infirmity of will.—Emerson.

The Covetous Man.

any request too soon in the morning,

prey, for his covetousness is up before
him, and he is in ill humor, but stay

Which Body is Marshall's?

Two bodies are lying in an under-
taker's shop at Birmingham, Ala., and
each is declared to be that of W. J.
Marshall, who disappeared from his
home in that place some time ago. A
part of the dead man's relatives iden-
tify one body as Marshall's, while
others declare the other corpse is that
of the missing man. There seems to
be no way to learn which is the right
man.

ANNOUNCEMENTS.

We are authorized to announce W. P.
Kimball, of Fayette County, as a candi-
date for the Democratic nomination
for Congress in the 7th District of
Kentucky, subject to the action of the
District Convention to be held in the
City of Frankfort, on Thursday, July
12th, 1906.

Where Christianity Began.

The hills of Bethlehem are full of
caves, natural and artificial, and
many of them have historic signifi-
cance. There is the milk grotto, in
which Joseph and Mary are said to
have concealed themselves before their
flight into Egypt to escape the evil de-
signs of Herod. The snowy whiteness
of the soft chalk out of which it is
hewn is ascribed to the spilling of a
few drops of the Virgin's milk when she
nursed the infant Jesus. Another grot-
to is pointed out as that in which St.
Jerome for more than thirty years led
the life of a hermit when bitter fac-
tional dissensions had forced him to
leave Rome. On a western hill a rock
strewn plateau, around which stately
terebinths stand guard, marks a place
where the ancient Hebrews brought
their sacrifices unto the Lord. It is a
solemn place, well fitted to excite re-
verent thoughts—a place where a man
might well keep communion with his
Maker. In its broader features Bethle-
hem is almost unchanged since the days
of David.—Four Track News.

Vegetable Rennets.

Those who would like to make cheese
on a very small scale are often trou-
bled to get proper rennet to produce
coagulation of the milk. A scientist
says that if the leaves of the common
butterwort are placed in a strainer and
the milk fresh from the cow is poured
over it the milk will soon become thick
and has a most delicious flavor. The
yellow bedstraw also possesses the
properties of curdling milk, and the
natives of Cheshire prefer it as a ren-
net to all other sorts. The leaves and
flowers are put in the strainer, and the
milk is slowly poured over them. The
flower heads of the garden artichoke
also possess the property of coagulat-
ing milk. In view of the carelessness
sometimes noted in people who prepare
rennet in the ordinary fashion this
vegetable rennet is worthy of atten-
tion. The leaves, properly cleaned and
prepared, would be very much safer
and more hygienic than animal sub-
stances which may go through chemi-
cal changes that unfit them for food.

Old Statues.

Herodotus makes Solon tell Croesus
of several men happier than he. Two
brothers, Cleobis and Biton of Argos,
he said, when oxen were lacking to
draw their mother, the priestess of
Hera, to the temple several miles dis-
tant, harnessed themselves to the cart.
When the mother, proud of her sons
and moved by the plaudits of the
crowd, had prayed to Hera that her
sons might receive the best gifts the
gods had to bestow, they lay down in
the shade of the temple and never
waked. Herodotus says that their
statues were sent to Delphi. Homolle
found at Delphi two statues practically
identical, of finest archaic work, made
early in the sixth century B. C. Since
one of them bore the signature of an
Argive sculptor, Polymedes, in archaic
letters, we may believe that the story
of Herodotus is based on fact and that
we have before us today the identical
statues.—Chautauquan.

The Elephant's Trunk.

An elephant's trunk answers that
animal as nose and hand. He also
uses it for drinking, drawing up the
water through his trunk and then pour-
ing it into his mouth. The elephant
has a singular habit when suffering
from the heat of poking his nose down
his throat into his stomach and with-
drawing a quantity of water, which he
then squirts over his back and sides to
cool his body. As during a warm day
this operation is repeated about once
in every five minutes riding an ele-
phant in the sun is no pleasant un-
dertaking.

cation?"

Toured the World.

A dispatch from Philadelphia says: "I ain't got a cent, but I'll be home in three weeks," said Guy Krumm, aged 15, Danville, Ky., who arrived yesterday with two other boys on the American liner Friesland, from a two years' tour of the world. The other two specimens of young America were Otto Ford, 18 years old, of Seattle, and Glenn Howell, of Atlanta. It was in November, 1904, that the boys ran away. They met in Chicago and made their way to Seattle before shipping on the Marion Frazier, for New Zealand. Ford and Howell shipped as able seamen, and Krumm, owing to his youth, was accepted as cabin boy. The boys sailed about 33,000 miles. Twice on their voyage they nearly starved. Young Krumm is a son of Police Officer Krumm, of Danville, who was killed in a blind tiger at Danville several years ago by a negro, who was hanged for the deed. The last the boy's family heard of him he was in Liverpool.

Jesse James, Jr.

The career of Jesse James, son of the famous outlaw of that name reads like a romance. He is now a full fledged lawyer, having passed the State Board examinations at Kansas City, Mo., at the head of a class of 37. His average in all branches was 91 per cent. Jesse started life at the foot of the ladder if ever anyone did—the son of an outlaw, left an orphan at the age of six, without money, and with the heritage of a bad name. One of the trying incidents of his life was his arrest and trial for train robbery, just at the time when he was on the road to prosperity and to an honored manhood. He was however acquitted, after a long trial. After this Jesse worked harder than ever, and today he is worth \$10,000, every cent of which he has made himself. He has two children and lives in a house of his own at Kansas City.

Charles H. Trent, United States treasurer, says we need more \$5 bills. Also a few more ones, twos and tens. Likewise twenties.

STOCK, CROP, &c.

—A Bracken county man sold three thousand pounds of honey at thirteen cents per pound.

—Ben Darnaby, of near Clintonville, sold to Solomon, of Lexington, two cars of export cattle at 5 cents per pound.

—R. B. Hutchcraft sold a crop of tobacco, about 12,000 pounds, to Abnee & Mussinson, at 8 cents. John Roseberry sold a crop of about 12,000 pounds to same at 8 1/2 cents.

—At Harrodsburg T. J. Hudson sold to M. Phillips a weanling mule for \$100. This is the three mules he has sold from this mare in succession at an average of \$103.35.

—Thomas McClintock & Sons shipped Tuesday evening the following double decked cars of lambs to Jersey City one each from Paris, Millersburg and Maysville and two from Carlisle. These lambs averaged eighty pounds and cost six cents per pound.

—The crop report issued to-day by the Department of Agriculture shows that the acreage of corn planted was 95,55,000 acres, an increase of 1.6 average condition 87.5 condition of winter wheat 85.6 condition of spring wheat 91.4.

Testing the Law.

It will be a long time before all the laws passed by the recent Legislature shall have been tried out in the courts and their constitutionality established.

The latest to be attacked is the one establishing the two Normal Schools, which is on trial before Judge Stout at Frankfort on a petition from Bell county to restrain the Auditor from paying over money to the Board of Regents. The claim of the plaintiffs is that under the provisions of the Constitution of the State a vote of the people is necessary to the expenditure of money other than for common school purposes. The claim of attorneys on the other side is that the Normal School is necessary to the successful conduct of the common schools and that it was within the power of the General Assembly to establish the schools and provide for maintaining them out of the public treasury.

Traction Promoters Visit Paris.

John Blair McAfee, of Philadelphia, head of the traction syndicate which owns and controls the Lexington street railway system and the interurban lines, with a party of men identified with the traction interests were in Paris Wednesday. It is understood that the party is here to confer with general manager R. T. Gunn in regard to contemplated improvements in the system and to look over the route of the proposed lines to the surrounding Blue Grass towns.

Those comprising the party were John Blair McAfee, Philadelphia I. L. Ottenheimer, Pomeroy, O., F. L. Dove and E. R. Coffin, New York, and Robert H. Allison, Ardmore, Pa.

Not Ready to Resign.

James Hargis entered an emphatic denial yesterday morning to the story that he would resign from the Democratic State Central Committee. He said no efforts had ever been made by any prominent Democrats to get him to resign. He said the press had made war on him and demanded his resignation, but that no member of the committee or the State administration had ever mentioned that matter to him.

Decision Against Rectifiers.

An opinion of the Attorney General, concurred in by the Auditor, is to the effect that rectifiers are required to pay on all spirits, rectified, adulterated or blended by them, whether it be straight distilled spirits, known as double-stamp spirits or single-stamp spirits, thereby producing what is known as single-stamp spirits.

Dr. Gilky's Office Burned.

The office of Dr. John A. Gilkey at North Middletown was burned Tuesday night from an unknown cause. The loss on the house is about \$600. A number of fine surgical instruments and medicines were ruined. But for a force of pumps vigorously used, many other houses would have been burned.

Kimball By Acclamation.

Judge Lee, of Owen, executive committeeman from the Seventh district, called the Congressional convention to select a Democratic nominee, to order at 1:10 o'clock at Frankfort yesterday and appointed S. J. Douthitt temporary secretary.

A roll call showed every county represented.

Rogers Clay, of Lexington, nominated Percy Haley, of Franklin, for temporary chairman, and his reference to Bryan as the peerless leader was greeted with loud applause.

John W. Douglass, of Owen, seconded Haley's nomination.

Campbell Cantrill said he believed in an equal division of honors, that Haley had been honored enough and nominated for temporary chairman Denis Dundon, of Bourbon county.

Haley was overwhelmingly elected, Bourbon and Scott only voting for Dundon. Oldham cast two votes for Dundon and two for Haley. S. J. Douthitt, of Henry, was made temporary secretary. On motion of Moses Kaufman, of Lexington, the temporary chairman was authorized to appoint one delegate from each county on the committee on resolutions, credentials and organization. The convention took a recess for thirty minutes to give the committee time to prepare its report.

Upon convening the temporary organization was made permanent upon the recommendation of the committee, the committee on credentials having found no contests.

The resolutions condemned trusts, endorsed the national platform and Bryan, the administration of Governor Beckham and the calling of a State primary election of United States Senator. The resolutions were unanimously adopted.

James H. Mulligan, of Lexington, nominated W. P. Kimball. He said he was nominating a man who is already nominated, but he made an eloquent speech anyway. H. K. Bourne, of Henry, nominated B. F. Hill, of Henry. W. P. Swope was also nominated.

The first ballot was partially taken and resulted:

For Kimball—Fayette, Franklin, Scott and Bourbon. Total 66.

For Hill—Henry. Total 11.

For Swope—Owen. Total 15.

For J. S. Morris—Oldham. Total 4.

The other candidates were withdrawn and Kimball's nomination was made unanimous.

Woodford's eight votes would have been cast for Kimball but the roll call was never completed on account of the withdrawal of other candidates and a motion to make Kimball's nomination unanimous.

CHARLIE TIDD

Becomes Despondent and Cuts His Throat in Room at St. Charles Hotel.

Chas. Tidd, aged about 40, a tailor who has been working for J. W. Davis & Co., committed suicide Wednesday night, in his room at the St. Charles Hotel, by cutting his throat with a small pocket knife.

Mr. Tidd was a Swede, and considered one of the best coat makers ever in Paris, and had been here about two years. He often talked with friends about his home in Sweden, and had said he had a married sister in New York City.

He worked all week, stopping at 5 o'clock Wednesday afternoon, going to his boarding house. He sat on the back porch of the St. Charles and read the newspaper until it became too dark to read. He remained there on the porch until about 9 o'clock, and then said to Mike Doyle, one of the proprietors of the house that he would retire and added "if anything should happen to me to-night you will find enough money at Davis' store to pay my board." He then went to his room, evidently committing the rash deed as soon as he reached the room, for he had not removed his clothes.

When not appearing at the noon hour a messenger was sent to his room and finding it locked peeped through the keyhole and saw his body upon the floor with a gaping wound in his throat.

He had also stated early in the evening that he was down-hearted and despondent, that he believed the police were after him. It seems he was arrested on the Fourth of July for imbibing too freely and it is said had since brooded over the matter.

The self-inflicted wound was about four inches directly across his wind pipe, and from appearances of the room and the wound it looked as if he had made several attempts before succeeding. The knife used was a small pocket knife, the blade not being over two inches long.

Cornor Dr. Wm. Kenney ordered undertaker Geo. W. Davis to take charge of the body and prepare it for burial, and it is now at that establishment.

CARL FERGUSON

"Shot and Killed Himself" at Troy, N. Y.

A telegram was received by Mr. Earl Ferguson from Troy, N. Y., yesterday afternoon stating that his brother, Carl Ferguson, had "shot and killed himself." No further particulars are known and it is not known whether it was an accident or suicide. Young Mr. Ferguson was 22 years old and had been in the brokerage business in Troy, N. Y., for several years. He visited his brothers in Kentucky last fall and spoke of his flourishing business in his adopted home.

The Mass Convention.

The Democratic Mass Convention here Tuesday to select delegates to the District Congressional Convention, at Frankfort, Friday, resulted in Bourbon sending an unopposed delegation. Most everybody was for Kimball and the only fight was for who the delegates should be. One faction led by Judge Dundon, wanted no instructions, and the other led by County Attorney Moore, wanted instructions. It turned out to be merely a local factional fight.

Rural Routes Changed.

The following is an official memorandum of the changes effective July 15 in the rural mail service of the Paris postoffice:

Pursuant to the recommendations of Special Agent Clary, who recently inspected the Rural Service in Bourbon county, the following changes, ordered by the Fourth Assistant Postmaster General, will become effective after July 15, 1906. These changes were necessitated by the frequent and long lapping of the rural routes over each other, which, when straightened out, rendered one unnecessary. After the trip on July 15 the changes becoming effective are as follows:

Route No. 9 will be discontinued, the territory formerly supplied by it being served by Route No. 1, which will leave the postoffice at 8:30 a. m. instead of at 11:45, and its direction as follows:

Southeast on North Middletown pike to North Middletown postoffice; South and Southwest on Thatchers Mill pike to Paris & Winchester pike; North on Paris & Winchester pike to Ironworks pike; West on Ironworks pike to Clintonville pike; North on Clintonville pike to city limits. Length of Route No. 1, 29 2-3 miles. Carrier on said route carrying locked pouch to North Middletown postoffice as heretofore.

Route No. 2 will leave postoffice at 11:45 a. m. instead of at 8:30 as heretofore, and its direction is as follows:

South on Paris & Winchester pike to Clay's corner on Spears Mill pike; East on Spears Mill pike to Bedford's corner; South to Thomas' corner; East to Paris and North Middletown pike; Southeast to North Middletown postoffice; Northeast to Harrods Creek pike at Rogers' corner; Northwest on Harrods Creek pike to North Middletown pike; North on North Middletown pike to Steele pike; Northeast on Steele pike to Flat Rock pike; West on Flat Rock pike to city limits. Length of Route 2 27 1/2 miles.

The patrons petitioned the postmaster for a change of time on Rural Route No. 5, which was recommended and granted, said route leaving postoffice at 8:30 a. m. instead of at 11:45 as heretofore.

By these changes Rural Service will be discontinued on the following pikes:

One mile on Winchester pike, lying between Ironworks & Spears Mill pikes.

One mile on Thatchers Mill pike, lying between Austerlitz and the Winchester pike.

One mile on Clintonville pike, lying between Clintonville postoffice and Ironworks pike.

Two miles on Thatchers Mill pike, lying between the Clintonville and Austerlitz postoffices, which territory will be supplied by Star Route between two postoffices, making practically no change in the service in that territory. J. L. EARLYWINE, P. M.

They Stand Alone.

Standing out in bold relief, all alone, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections, whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—printed in plain English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither—being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are the best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted free, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Excursion to Niagara.

A personally conducted excursion through Canada to Niagara Falls and return, via L. & N. and C. H. D. and Wabash Railroads, and returning via Buffalo and D. B. steamers to Detroit, stopping there one day, thence C. H. & D. and L. & N. to starting point, will leave Paris on morning trains of Saturday, July 28, 1906. Through sleepers from Paris. Twenty-five dollars pays all expenses, including railroad fare, hotel bills, sleeping car, berth on steamer, in fact, all necessary expenses. It will be in charge of Judge J. D. Wyatt, formerly of Fleming county.

The entire Kentucky party are requested to be at the Palace Hotel, Cincinnati, at 11:30 a. m. July 28, at which point they will be met by Judge Wyatt. We understand quite a number will go from here.

Girl Named Hour of Her Death.

Two months ago William Johnston an undertaker of New Castle, Pa., was handed a sealed envelope by Miss Nannie Kyle, a beautiful girl of Springfield township. She told the undertaker that the envelope was not to be opened until after her death. He laughed but placed the envelope in a safe. The other day Miss Kyle died of stomach trouble. Remembering the envelope the undertaker opened it and found that it contained an announcement of [the girl's] death, to the very day and hour. She had also named the cause of her death.

A ONE-DAY SENSATION

SPECIAL SALE OF

Grey Enameled Ware,
FOR
Wednesday, July 18th.

The Bargain Event of the
Season.

On a recent buying trip to New York we met with exceptional good fortune. We heard of a big lot of Grey and White Enameled Ware that a jobber was wanting to sell for cash at a sum that averaged up less per piece than anything we have ever before heard of. We went and inspected the lot, found it even more desirable than we had expected, and quickly closed the deal.

The lot was shipped to us last week, and now we are ready to hold a sale that we know will appeal to every housewife reading these lines.

On Wednesday, July 18,

we shall hold a grand special One-Day Sale of this White and Grey Enameled Ware, at the lowest prices, at which ware of this kind was ever sold in this town, in this or any other store. We shall not ask over 10c for a single piece in the lot; and many of them we shall offer for much less than that.

Remember that the sale lasts but one day; and do not neglect to come and see for yourself just how much this opportunity means to every wise, shrewd bargain-seeker. We expect to sell every bit of this big lot on this one day, for never were grander bargains offered in this store. Space does not permit us to specify prices, but 10c is the very highest.

For One Day Only,

WEDNESDAY, JULY 18th.

Dandies of Papua.

Even the natives of Papua have their fine gentlemen, their dandies. To rank in this class the young man is compelled to lace his waist and to have a nose ornament of polished shell. But, as an explorer says, "very few young blades can afford to possess one, and accordingly it may be lent either for a consideration or as a very special favor. The possessor of one of these ornaments could easily buy a wife for it, and sometimes it is paid as a tribal tribute by one should he have to pay blood money or be unable to give the statutory pig as atonement for a murder." Papuan husbands, too, have a primitive way of dealing with their recalcitrant wives. A man named Gedon had a shrewish helpmate whom he attempted to tame according to this method: "He would pick up a billet of wood when she was halfway through a tremendous scolding and give her a terrific blow over the back. Thereupon ensued pandemonium. The other men and women would gather round, jabbering, but they would make no attempt to stop the beating once it had begun."

The Fashionable Dinner.

Eight men exclusive of the butler are required to serve a dinner of twenty-four covers, one being allowed for every three diners. Another is stationed in the pantry to "run in" the courses. Absolute order and silence reign among these men, who perfectly understand the butler's cabalistic signs. Electric signals pass constantly between chef and butler. From the seating of guests until the ladies leave not more than eighty-five minutes should elapse, for long dinners are considered bad form. Upon these occasions scarcely a member of the domestic corps escapes some special duty. The housemaids assist the pantry maid. After each course twenty-four silver plates and countless small silver must be carefully cleansed, wiped very dry and then polished with chamomile before being put away. Nearly 200 pieces of engraved crystal ware must be washed and polished, and it is too costly and brittle to be hastily handled.—Everybody's Magazine.

Always Awake.

Bacon—They say a person will die for want of sleep in ten days. Egbert—It's miraculous what keeps that baby of mine alive.

When I find a great deal of gratitude in a poor man I take it for granted there would be as much generosity if he were rich.—Pope.

Lost Her Voice.

Miss Grace Geller, of Evansville, Ind., who is visiting relatives in Owensboro, Ky., will never be able to speak again above a whisper as a result of taking a dose of carbolic acid. It is said that the young woman thought she was taking a dose of headache medicine. She was an accomplished singer, but the vocal organs of her throat were burned to such an extent that she will never be able to sing another note.

A Remarkable Case.

Nathaniel Jackson, aged 23, a negro, after living for eight weeks with a bullet in his heart, died yesterday at the City Hospital at Henderson, Ky. City Physician H. W. Edwards, who held the postmortem, took a 32 caliber bullet from the apex of the heart just under the skin, the bullet having gone almost through that organ.

Jackson was shot at a negro dance May 13 by Jesse Sutton, another negro. Sutton made his escape and was captured in Louisville, June 20, and taken back to Henderson. Physicians there consider this a most remarkable case.

The place where the bullet entered the heart was entirely healed.

Dying of Famine

is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers, of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me. Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at Oberdorfer's drug store. Price 50c and \$1 a bottle. Trial bottle free.

Locomotives and Cars.

Locomotives and cars approximating the value of \$260,000,000 were built in the locomotive and car shops of the United States in 1905, according to the figures collected by the Railroad Gazette. These returns do not include the locomotives and cars built by the railroads in their own shops, of which an exceptionally large number were constructed during the year, nor do they include street and interurban electric cars. The number of locomotives built was 5,491, as against 3,441 in 1904. The number built exceeds the total for any previous year. The car output, subject to the limitations noted, was 168,006, the largest car output in any one year.

Showing Marked Improvement.

A very plain man in Troy had a very pretty daughter. One day she was sitting on his knee right before a looking-glass. She contemplated the reflections of their two faces and then asked—

"Papa, did God make me?"
"Yes, dear," he replied.
"And did He make you?"
"Yes."

Looking again into the mirror, she drew a long breath and rejoined. "He must be turning out better work lately, isn't He?"—Troy, Kans., Chief.

The Conductor's Mistake.

A conductor on a St. Louis suburban railroad had such a good run of business Sunday afternoon that he had difficulty in keeping himself supplied with small change. Many passengers who patronized his car handed him dollars and bills of larger denominations in payment of their fares. The conductor, however, managed to get along fairly well until a woman carrying a tiny infant boarded his car. When he approached the woman for her fare she handed him a \$5 bill.

"Is that the smallest you have, Madam?" queried the conductor, fearing another stringency in change.

The woman looked at the conductor and then at her baby, and made this surprising reply: "Yes, I have been married only twelve months."
